

# FuelMaster®

## Diesel Storage and Dispensing Solutions

Available from 1 200 – 9000 litres

**Return on Investment**

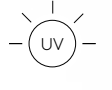

The greater the volume of the FuelMaster®, the higher the return on investment is (lower prices at purchase of large amounts of diesel)

**Top Standard**

FuelMaster® tanks are top quality, reliable and durable solutions with a 10 year guarantee

**High Quality**

High quality polyethylene guarantees a high resistance to changing weather conditions and UV radiation.

**Intelligent Tank Monitoring**

The FuelMaster offers unique tank monitoring and management systems allowing users to continually monitor and manage their diesel levels

## FuelMaster®

The FuelMaster range is available from 1,225 - 9,000 litres with a number of specification options and intelligent tank management and monitoring systems to suit all agricultural, construction and transportation requirements. For users requiring a more comprehensive platform to effectively manage large fleets the FuelMaster PRO would be suitable.

All FuelMaster tanks are double skinned for environmental protection and to safeguard against contamination. The tanks are fitted with a lockable cabinet providing security for internal equipment.

The Kingspan FuelMaster gives our customers a quality, cost-saving and compliant diesel storage solution backed by excellent customer service and a 10 year tank guarantee\*.
